PREAMBLE

All the members of the school community--parents, students, and staff--are members of the team working together to create the best possible learning environment through the development of democratic ideals.

A student's exercise of rights and privileges in the school setting depends upon the student's age, maturity, and the standards of the community.

Acceptance of responsibility is an important aspect of our education. Each person is responsible for their own behavior and will be expected to accept the responsibility for it.

The school community should promote tolerance and understanding for the views and opinions of others, as well as for the right of an individual to form and hold different opinions and beliefs.

Each student has a right to an education. Disciplinary measures that deprive students of this right will be used only when necessary. Student behavior that unduly disrupts classwork, involves substantial disorder, or invades the rights of others will not be tolerated.

This Code will be administered in accordance with due process (described in Section F).

The D.C. Everest Area School District does not discriminate against pupils on the basis of sex, race, religion, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation, or physical, mental, emotional, or learning disability or handicap in its education programs or activities.

AGE OF MAJORITY - IMPLICATIONS FOR SECONDARY SCHOOL STUDENTS

D.C. Everest High School recognizes that when a student reaches the Age of Majority he/she is afforded all the rights and privileges of adulthood.

The adult as a student is a part of the school society and participates as all other students in shaping the school environment. Therefore, in order to preserve the common good of the school community, it is necessary that they too accept the responsibility of adhering to the rules and regulations that have been established by the School Board for all students so that the school may continue to function in an educationally sound manner.

A. Political Activities

1. The professional staff is to help students as they reach the Age of Majority to register and vote.
2. The professional staff should cooperate with appropriate election officials to accomplish maximum voter registration.

B. District and Building Procedural Guidelines

1. Students are not exempt from complying with any rule or policy enacted by the School Board, administration, or faculty because they have reached the Age of Majority. By statute, school boards are authorized to make rules, including rules pertaining to student conduct, or to delegate this rule-making function to the district's administrators or teachers. School rules made under the authority of these statutes are binding on pupils regardless of age.
2. The Code of Student Rights and Responsibilities prohibits students from smoking or having possession of tobacco products in the school building or on school grounds. The code also prohibits students from using, being in possession of, distributing, or being under the influence of intoxicants or illegal drugs within the school building, on any school district-owned site, or at any school-sponsored event.
3. The Age of Majority does not have any effect on the age of compulsory attendance, which remains 18 for the D.C. Everest Area School District. Students are required to attend school through the end of the semester of their 18th birthday. The School encourages all students to continue their education until graduation is reached.
4. Students beyond the Age of Majority will be made aware that they will be held responsible and accountable for any and all actions in the same manner as any other adult or student.
5. A student, upon reaching the Age of Majority and wanting to assume full responsibility for his/her report card, attendance and other school related procedures, student records and activities, shall notify the high school principal in writing of his/her desire.
6. A student, beyond the Age of Majority electing to attend school in a district other than the residence of his/her parents, shall be subject to rules, regulations and laws established by the state and local school district. For purposes of interscholastic athletic eligibility, W.I.A.A. regulations provide eligibility only at the district in which the parents reside.

C. Curriculum Consideration

1. New voter education is a proper function of secondary school curriculum.
2. Administrators shall take action as necessary to encourage staff members to reevaluate curriculum offerings and to offer suggestions and recommendations to the curriculum committee for any changes deemed necessary.
